VOLUME 27 :: ISSUE 04 :: APRIL :: 2015

President's Corner

Don't forget that Thursdays are "fly night" at the field. Add some LED lights and we'll get some night flying in too!

We are looking for mesh for the fences. As it turns out the stuff that we currently have is hard to find. If you know where we can get some please let me know.

The next meeting is at the field so bring a plane and come on out.

See you at the field
Wes "Scott" Parker

Field Maintenance Day

It looks like the only thing you can really count on in Missouri is not being able to count on Missouri weather.

Field Day on April 18 got rained out. Since the amount of planned work to be done was minimal, there was no great loss to the day. Cleaning out the refrigerator and storage shed, and repairing the field mesh fencing were the only major items on the list.

There was some difficulty in finding hex shaped mesh to match the webbing already being used, so we'll be looking into that soon.

APRIL Meeting Minutes

Minutes not available for print at time of this issue. Minutes Will be available upon request.

BOY SCOUTS AVIATION BADGES

The Boy Scouts of America have an Aviation Badge which requires some aviation tech knowledge and model building and flying experience.

The club will be available to assist these scouts as soon as a list of scouts and a date at the field can be made available.

We would like all club members to consider being available with your own particular knowledge and experience to help these boys learn about model flying, and aviation in general.

More information will be available as this project progresses.
