President's Corner

The Springfield RC Club is once again in the good graces of the AMA. All of our yearly charter paperwork has been done. Fortunately AMA makes it pretty easy. Fees haven't changed much over the last few years—the basic charter is \$30 and the landowner certificate is another \$60. Considering AMA provides \$2.5 million in liability insurance for our club it's a pretty good value. And a necessity! With that in mind it's probably a good idea to remind everyone to fly safely and take the appropriate safety measures in the pits. We've been very fortunate with our safety record so let's continue that in 2015.

At our last meeting we discussed when we should have our monthly meetings at the field versus at the library. Last year (or maybe the year before—I can't remember) we had the June, July and August meeting at the field. We've decided to extend that to include May and September. Everyone seems to enjoy meeting at the field as much as possible so the change will extend that a little.

Hope everyone is doing well so far this year. I know we've seen quite a bit of flying at the field already. I haven't managed to make it yet since the weather turned nice but that's going to change soon!

See you at the field-
Wes "Scott" Parker

Meeting Minutes

Unpublished but on file. Email Aaron if you need a copy.

Noteworthy Events

Wings Over Whiteman!

Whiteman AFB Annual Airshow will be held June 13-14.

It's a great show. Not one to miss!

Members encouraged to comment on FAA's sUAS NPRM

On February 23, 2015, the FAA published its proposed regulations for small unmanned aircraft systems (sUAS) as a notice of proposed rulemaking (NPRM). AMA has created a suggested template for comments, which we strongly encourage you to edit and personalize. Unless extended, the deadline for submitting comments is 11:59 p.m., Friday, April 24, 2015.

(EDITOR'S NOTE: ALL MEMBERS SHOULD LOOK INTO THIS AND NOT DISREGARD IT. IT CAN AFFECT OUR HOBBY).

ALWAYS READ AND FOLLOW INSTRUCTIONS

Good advice, yes? However, the following text was taken from the owner's manual of a new transmitter!

"MIX 6-7: Mix purpose to accuse of form to get rid of little mistake of organism, make it is it can take the heart conveniently even more to have not to handle. The very wanton one mixes accusing of among the channel."

INTERESTING TIP

How to hold those VERY tiny nuts in a tight position and get them threaded onto the machine screw. Wrap your finger with masking tape sticky side OUT. Dab nut with taped finger and hold in required position. Thread in the screw. Worked for me.
