### President's Corner

Time to start wrapping things up for 2012! Hard to believe but it'll be October in a few days and we've got a few things to get done. This coming Saturday (09/29) is field day. Finally going to get electricity to the flight stands! I've already got the materials and I'm picking up the trencher at 9am that morning. It's a giant machine and I have no clue how to really run it so be sure not to miss the entertainment. If you're a good electrician (or not so good) come on out and help install the breakers and conduit. Other than trenching for the electrical we don't have a whole lot on the list of things to do except maybe cleaning out the building and fridge. Bring a shovel if you've got one. We'll need a broom or two and some windex and paper towels as well.

We need to get a slate of officers together for our annual elections. I almost forget about this every year. Sneaks up on me for some reason. As of last year, board members are responsible for compiling the "list" of candidates so tell a board member if you'd like to be on that list. Seriously, take a minute and think about volunteering for one of the positions. It's relatively painless and the club can't function without a good set of board members and officers. WE need YOU!!

The Christmas Party is mostly taken care of. Same place. Same time. Same great food. More details as we get a little closer.

See you at the field . . .

Wes "Scott" Parker

### 2013 Officer Elections

Want to be an officer or board member for 2013? Sure you do! To volunteer just tell a board member to put you on the list.

### Are you a Newsletter Editor?

Let's see—

Qualifications: None

Experience Needed: None

Talent Required: None

Materials: Provided

Pay: *Yeah Right*

Position Available: NOW

Now ask yourself—"what happened to the August newsletter"? It never got published! If you'd like to make sure this doesn't happen again volunteer to take over. Training and materials provided.

### Needed for Christmas Party

Start collecting any pictures you'd like included in the "year in review" DVD. Someone you'd like recognized for their efforts? Please let Wes Parker know.
